

Prof. Magdy W. Sabaa

Prof. Magdy W. Sabaa, Cairo University, Egypt

Since August 2010, he was appointed as Emeritus Professor of Polymer Chemistry, at the Faculty of Science, Cairo University. He got his B.Sc. degree in Applied Chemistry in 1971 with grade Distinction and Honor degree from Cairo University. After completing his Ph.D. degree in 1979, in the field of Polymer Chemistry, he was appointed as lecturer of polymer chemistry at the Faculty of science, Cairo university, then assistant professor and finally as professor of polymer chemistry in 1991.

During his scientific career, he attained two postdoctoral fellowship, the first at Prague Institute of Chemical Technology (1981-1982) and the second at Tokyo Institute of Technology (1983-1984). Moreover, he attained a training course in polymer physics at Trieste, Italy during April-May 1987. He has published 108 research articles and one review article in international Journals, two book chapters along with 18 publications in proceeding of national and international conferences. Moreover, he was a co-author for a book, published by springer in 2013. He has supervised more than 60 M.Sc. and Ph.D. theses in the field of polymer chemistry. He participate as a reviewer in various international journals and member in the Arab Society of Material Sciences and Egyptian Society of Polymer Science and Technology. His research activity is in the field of polymer

degradation and stabilization, graft copolymerization, preparation of hydrogels and SI-hydrogels, super absorbing materials, biodegradable polymers, nanocomposites and polymers with antimicrobial activity.
